Board of Patent Appeals and Interfer entered part of Patent Appeals and Interfer enter the Board of Patent Appeals and Interfer enters and Interfer enters and Interfer enters and Interfer enters

Application 09/618,972 was received from the Technology Center at the Board on October 07, 2005 and has been assigned Appeal No: 2006-0107.

A review of the file indicates that the following documents have been filed by appellant:

Appeal Brief filed on:

November 13, 2003

Reply Brief filed on:

July 16, 2004

Request for Hearing filed on: NONE

In all future communications regarding this appeal, please include both the application number and the appeal number.

The mailing address for the Board is:

BOARD OF PATENT APPEALS AND INTERFERENCES
UNITED STATES PATENT AND TRADEMARK OFFICE
P.O. BOX 1450
ALEXANDRIA, VIRGINIA 22313-1450

The facsimile number of the Board is 571-273-0052. Because of the heightened security in the Washington D.C. area, facsimile communications are recommended. Telephone inquiries can be made by calling 571-272-9797 and should be directed to a Program and Resource Administrator.

By order of the Board of Patent Appeals and Interferences

DETAILED ACTION

Claim Objections

Claims 7, 8, 18, 19 and 22 are objected to because of the following informalities:
 In claim 7, "Damascene damascene" should be replaced with --damascene--.
 In line 1 of claims 18 and 19, --recited-- should be inserted between "as" and "in".
 In line 2 of claim 22, --a-- should be inserted between "wherein" and "shallow."
 Appropriate correction is required.

Claim Rejections - 35 USC § 112

- 2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

 The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 1 8 and 18 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 requires that the conduction channel have a first thickness. The meaning of the term "thickness" as it relates to the channel region is not understood. Is this a reference to the channel length, which can be defined by the distance between the source and drain? Is this a reference to a vertical thickness of a layer disposed on the substrate, in which the channel region is formed? Is this a reference to a distance that is orthogonal to the channel length?

Allowable Subject Matter

4. Examiner notes that the prior art of record does not disclose an FET with a dual-gate, as recited in claim 1, particularly including "polysilicon gate regions having silicide sidewalls formed thereon."

Response to Arguments

5. Applicant's arguments with respect to claims 1 – 8 and 18 – 22 have been considered but are most in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Douglas W. Owens whose telephone number is 571-272-1662. The examiner can normally be reached on Monday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie C. Lee can be reached on 571-272-1732. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
